Subject: Division Directive to Provide Updates to the Notice of Intention, Geneva Rock Products LLC, Pelican Point Quarry, M/049/0011, Utah County, Utah

Dear Mr. Sumsion:

The Notice of Intention to Commence Large Mining Operations (Notice) for the Pelican Point Quarry needs to be updated to show the current registered agent and to correct or clarify information with regard to soil stockpiles.

The registered agent is shown in the Notice as Jim Golding, but the person listed with the Division of Corporations is Howard Watts. Although the R647 rules do not require that the registered agent be listed in the Notice, any information in the Notice should be accurate. Please correct the Notice and/or the information on file with the Division of Corporations.

Section 109.3 of the Notice discusses topsoil salvage and volumes. The first paragraph in this section says approximately 55,199 cubic yards of soil will be stored after five years of mining, and the Notice discusses a total of five stockpiles that would be used as the mine is developed.

Please review Section 109.3 of the Notice to determine whether it is still accurate and whether modifications are needed regarding the volumes of soil salvaged and locations of stockpiles. Please submit an amendment if the Notice needs to be updated.

Please also provide photos of the cleanup activities of the equipment removal from the undisturbed area that was pointed out during the June 30, 2016, inspection.

By August 31, 2016, you are hereby directed to:

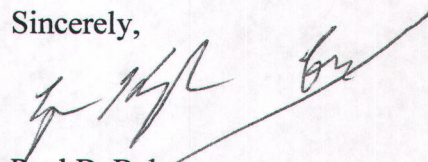

Page 2 of 2  
Geneva Rock Products, LLC  
M/049/0071  
July 29, 2016

- Amend your NOI by providing updated contact information for the registered agent and, as necessary, an update to Section 109.3 with respect to the topsoil areas.

Please contact April Abate at 801-538-5214, or me at 801-538-5261 if you have questions or concerns regarding this letter. Thank you for your help in keeping the Notice up to date.

Sincerely,

A handwritten signature in black ink, appearing to read 'P. Baker', written over a horizontal line.

Paul B. Baker  
Minerals Program Manager
